

FOR SALE The Institute of Historical Research is the University of London's centre for postgraduate studies in history. For well over half a century it has been publishing a regular bulletin focusing primarily on topics related to Britain and Ireland. The Society has just over a hundred issues of the bulletin, fourteen dating from 1954 to 1958 and eighty-five from 1974 to 2005 (with odds in between and after). In order to create more shelf space to accommodate items a little closer to our core mandate we are looking to find a new home for them. \$50 would secure the lot.
